

ATENA RAZM

Frontend Developer - Burnaby, BC

atenarazm@gmail.com | (236) 777-0343 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Detail-oriented and self-motivated frontend developer with 3+ years of hands-on experience in developing **new features**, **refactoring** current features, and **maintaining** web applications. Proven track record with **React**, **JavaScript**, **ES6+**, **TypeScript**, **HTML5**, and **CSS3**. Solid understanding of the **React ecosystem**, with strong skills in building **reusable components** and extensive experience in unit and integration **testing**. Demonstrated ability to collaborate effectively with product owners, designers, and backend developers in cross-functional teams within **Agile** environments across **start-ups**, **NGOs**, and **corporate enterprises**. Committed to continuous improvement, effective **collaboration** and team success. Skilled in **communication** of technical concepts to non-technical audiences.

EXPERIENCE

Pip Empire Cryptocurrency Fintech Company | *Frontend Developer* Dec 2023 - Present | Toronto - Remote

- Utilized **React hooks** and **Context API** to optimize form performance and reduce duplicate code by 50%.
- Utilized **React Query** and **Context API** to simplify **state management** resulting in cleaner, maintainable code.
- Optimized the application and enhanced its overall speed and responsiveness by 48% by eliminating unnecessary renders, and **reduced bundle size** by 18% using Tree Shaking, Code Splitting, and **Lazy Loading**.
- Improved user experience and developer experience by creating reusable React components in collaboration with the UI/UX team, which increased **code reusability** by 30% and reduced development time for new features by 25%.
- Implemented responsive and cross-browser compatible UI components using **Material UI**, **CSS**, and **Tailwind**.

GoodBot NGO | *Frontend Developer (Volunteer)* Feb 2024 - Present | Vancouver - Remote

- Developed and implemented responsive web applications for the "Responsible Tech Project" ensuring seamless user experience across devices and screen sizes using **React.js**, **Next.js**, and **Tailwind**.
- Implemented a **user-friendly** dashboard and data submission UI to store and modify data in the **Supabase database** through **forms**, enhancing the user experience by over 80%.

ESG Studio | *Frontend Developer* May 2022 – Aug 2023 | Vancouver - Remote

- Maintained **modern** and **legacy projects** using **ActionScript** and **C#** to ensure smooth and efficient performance.
- Troubleshoot and **debugged** front-end issues including missing animations, audio reset bugs, and image overlaps.
- Developed the project user interface based on the prototypes provided by the UX team, and used **Jenkins CI/CD**.
- Safely integrated new technologies, updated dependencies, and replaced **SDKs** and third-party libraries.

iContribute NGO, *Frontend Mobile Developer (Volunteer)* Dec 2021 - Sep 2022 | Vancouver - Remote

- Implemented the new UI features using **React Native**, **JavaScript**, **Bootstrap**, and the in-house CSS rules.
