

# ATENA RAZM

Frontend Developer - Burnaby, BC

atenarazm@gmail.com | (236) 777-0343 | LinkedIn | GitHub | Portfolio

## SUMMARY

Detail-oriented and self-starter frontend developer with 3+ years of hands-on coding experience including new features and maintenance. Ability to communicate technical concepts with non-technical audiences.

- Experienced in **HTML5**, **CSS3**, **JavaScript**, **ES6+**, and **TypeScript**.
- Solid understanding of **React**, and its eco-system including **SSR & CSR**, **NextJS**, **React Query**, **React Router**, **Hooks**, **Context API**, **Redux**, **GraphQL**, and **Supabase**.
- Proficient with using build tools and package managers such as **Webpack**, and **Vite**, as well as version control systems like **Git** and **Perforce**.
- Experienced with **API** design and **RESTful API** development.
- Familiar with **Figma** and **Balsamiq**, and knowledgeable in **UI/UX** design concepts such as prototyping.
- Experienced with **CSS**, and **SCSS** with extensive experience in **Tailwind**, **Material UI**, and **Bootstrap**, for **responsive**, **cross-browser**, and **cross-platform** web design.
- Skilled in Continuous Integration/Continuous Deployment (**CI/CD**) using **Jenkins**.
- Experienced with project management methodologies and tools such as **Agile**, **Jira**, and **Confluence**.
- Familiar with **C#**, **PHP**, **Laravel**, **OOP**, **WebSockets**, **Relational Databases**, **SQL**, and **WordPress CMS**.

## PROFESSIONAL EXPERIENCE

**Pip Empire Cryptocurrency Fintech Company, Frontend Developer** Dec 2023 - Present | Toronto - Remote

Developed well-documented, reusable React applications and performant components as part of a cross-functional team, collaborating closely with the CEO, product owner, designers, and backend developers.

- Coded new features using React.js, Vite, React Router, Material UI, and Tailwind.
- Utilized React hooks, Context API, React Query, and SWR to manage both UI and remote state effectively.
- Improved user experience by creating reusable React components in collaboration with the UI/UX team.
- Optimized the application by reducing bundle size, preventing unnecessary renders, and improving overall app speed and responsiveness.
- Actively participated in code reviews, providing and receiving feedback to improve the code base and share knowledge in an Agile environment.

**GoodBot NGO, Frontend Developer (Volunteer)** Feb 2024 - Present | Vancouver - Remote

- Developed a responsive web application for the "Responsible Tech Project," ensuring a seamless user experience across devices and screen sizes using React.js, Next.js, Supabase, and Tailwind.
- Implemented a dashboard and dynamic forms to store, retrieve, modify, and delete data in a Supabase database.

**ESG Studio, Frontend Developer** May 2022 – Aug 2023 | Vancouver - Remote

- Maintained modern and legacy projects, using ActionScript and C# to ensure smooth and efficient performance.
- Troubleshoot and debugged front-end issues including missing animations, audio reset bugs, and image overlaps.
- Developed user interface based on the prototypes provided by the UX team, and used Jenkins CI/CD.
- Safely integrated new technologies, updated dependencies, and replaced SDKs and third-party libraries.

## EDUCATION

Associate Certificate in Applied Web Development – BCIT

Sep 2019 – Jun 2022 | Vancouver
